Please join us on Wednesday 23 June 14:00-15:30 (BST) to celebrate the official launch of the new **Health and Wellbeing Across the Life Course (HWLC) Hub, part of The Open University's Centre for the Study of Global Development (CSGD).**

The HWLC Hub aims to bring together research across the life course which focuses on a range of health issues aligned with sustainable development and intertwined with issues such as economic growth and poverty, education, gender equality and the environment. We will provide a home for anyone researching in these areas, including children, young people and families, ageing, death, dying and bereavement, reproduction, sexualities, and sexual health, learning disability and longterm conditions.

The launch event will introduce the HWLC Hub by the hubs leads Dr Philippa Waterhouse & Prof Cathy Lloyd and include a keynote speech from **Dr Victoria Mutiso from the Africa Mental Health Research & Training Foundation, on 'Approaches to Research in Underserved Populations'**. It will provide an opportunity for us to hear from you and find out what your priorities are and how we can support you.

The event will take place on Zoom. Register for the event at [Eventbrite](#).
